

Comparing Canada's Size with Other Countries

- [1] The table below lists the ten largest countries in the world. Fill in the missing information.

Amount larger or smaller: Country Area – Canada's Area

Percentage of Canada's size: Country Area / Canada's Area x 100

Rank	Country	Area (km ²)	Amount larger (+) or smaller (-) than Canada (km ²)	Percentage of Canada's Size
1	Russia	17,098,242		
2	Canada	9,984,670	N/A	N/A
3	United States	9,826,675		
4	China	9,596,960		
5	Brazil	8,514,877		
6	Australia	7,741,220		
7	India	3,287,263		
8	Argentina	2,780,400		
9	Kazakhstan	2,724,900		
10	Algeria	2,381,741		

- [2] Draw a bar graph to compare the areas of the countries listed above.
- [3] (a) Label these countries on the world map (include the country name and number).
 (b) Colour these ten countries orange.
 (c) Include an appropriate title, legend and compass on your map.
