

Mental Map of Canada

On the other side of this page, draw a map of Canada as close to reality as possible. Do this on your own without looking at other people's maps or any reference material such as an atlas. On your map, label what you regard as important features, such as provinces, cities, mountain ranges and bodies of water. Include as much information as you can remember. When you have finished, analyze your map.

[1] Which parts do you know best?

[2] Which parts of your map are incomplete?

[3] Do you feel it is important to know where places are in Canada? Explain.

!! Save your map and we will try it again at the end of the course!!

My Mental Map of Canada

A large, empty rectangular box with a black border, intended for drawing or writing a mental map of Canada.
