

Canadian Geography

Unit #2 Vocabulary

- Air Mass
 - Air Pressure

 - Calcification
 - Canadian Shield
 - Cold Front
 - Condensation
 - Coniferous
 - Continental Climate
 - Convectonal Precipitation
 - Cyclonic Precipitation

 - Deciduous Trees
 - Drainage

 - Ecozone
 - Erosion
 - Escarpment
 - Evaporation

 - Faulting
 - Fiord
 - Folding
 - Fossils
 - Front

 - Geologic Time
 - Glaciers

 - Highlands
 - Humidity
 - Humus
- Ice Age
 - Igneous Rock
 - Intrusion

 - Jet Stream

 - Leaching
 - Lowlands

 - Maritime Climate
 - Metamorphic Rock
 - Mixed Forest
 - Moderating Climate

 - Permafrost
 - Plate Tectonics
 - Plateau
 - Prevailing Winds

 - Relief Precipitation
 - Rift Valley

 - Sedimentary Rock
 - Soil

 - Temperature Range
 - Topography

 - Warm Front
 - Wind

 - Transition zone
 - Tundra
