

## Canadian Geography

### Unit #4 Vocabulary

- Acid Precipitation
- Agribusiness
- Agricultural revolution
- Aquaculture
  
- Basic Industry
  
- Clear-cutting
- Commercial forests
- Continental shelf
- Contour plowing
  
- Erosion
- Extensive farming
  
- Fossil fuel
  
- Geologist
- Groundfish
- Growing season
  
- Industrial mineral
- Inshore fishing
- Intensive farming
  
- Manufacturing
- Mechanization
- Metallic mineral
- Milling
- Mineral
  
- Non-basic Industry
- Non-commercial forests
- Non-renewable resource
  
- Offshore fishing
- Open pit mining
  
- Pelagic fish
- Pesticides
- Plankton
- Primary industry
  
- Raw materials
- Renewable resource
  
- Secondary Industry
- Selective cutting
- Services
- Shellfish
- Shelterwood Logging
- Smelting
- Strip mining
- Sustainable agriculture
- Sustained Yield Management
  
- Tailings
- Tertiary Industry
  
- Underground mining
